

Key to Abbreviations used by the Course Scheduling Software

The course scheduling software forces us to abbreviate some course names. Below, you will find a list of those abbreviations and the complete course title. Note that not all courses must be abbreviated, so not all courses appear on the list below. You may find course descriptions for all courses offered for the 2012-2013 school year online at <http://www.uncsa.edu/hscourseplanning>
